1982 MILLING DIRECTORY/BUYER'S GUIDE

This 1982 Milling Directory/Buyer's Guide comprises two sections. The first is a continuation of the Directory of Milling which had its beginnings more than half a century ago and has been published by *Milling & Baking News* since 1973. The second is a Buyer's Guide of milling equipment and services, first published as a separate directory by *Milling & Baking News* in 1978.

The Milling Directory provides a comprehensive listing of companies and products in the milling industry, including daily flour milling and storage capacity, railroad service, executives in management and production, and wholesale and retail brands. The statistical summaries beginning on Page 7 detail milling capacity by largest companies, by states and by type of flour. An alphabetical listing of milling companies begins on Page 86.

The Buyer's Guide includes a complete listing of products and services for milling and an alphabetical list of companies producing and/or supplying these products to milling. Suggestions on how to use the Buyer's Guide appear on Page 93.
